PROVIDING  
FULL-STACK  
SOFTWARE  
ENGINEERING  
SOLUTIONS

## Core Operational Capabilities

### Full Motion Video

Web solutions supporting the collection, dissemination, and exploitation of video from disparate sources – Manned/ unmanned systems. Custom mobile and desktop applications

### Tactical Messaging

Development of interoperability services which include multiple tactical standards – Link-16/USMTF/Blue Force Tracker/IBS/OTH-G/ASTERIX

### Command and Control Dashboards

Web based tailorable dashboards allowing for information sharing throughout multiple organizations – Highly effective knowledge management and collaboration

### Rapid Prototyping

Prototype development and successful transition to programs of records with thorough institutional knowledge of processes and requirements

### Security

Continuous maintenance with today's dynamic accreditation processes – to include full RMF certifications
